Based on feedback provided from the Ladue Architectural Meeting on October 21, 2021, we are proposing the following:

Install an 18" Azek White exterior board that includes a Rams Crown Detail and the lower portion of the board along with the Rams Crown Detail in the center of the 18" board. That design matches the Front Exterior of the Sunroom and the Rear of the Covered Porch.

Photos called out in **Red** show the impacted areas along with a representative photo of the finished product with specs from Azek.

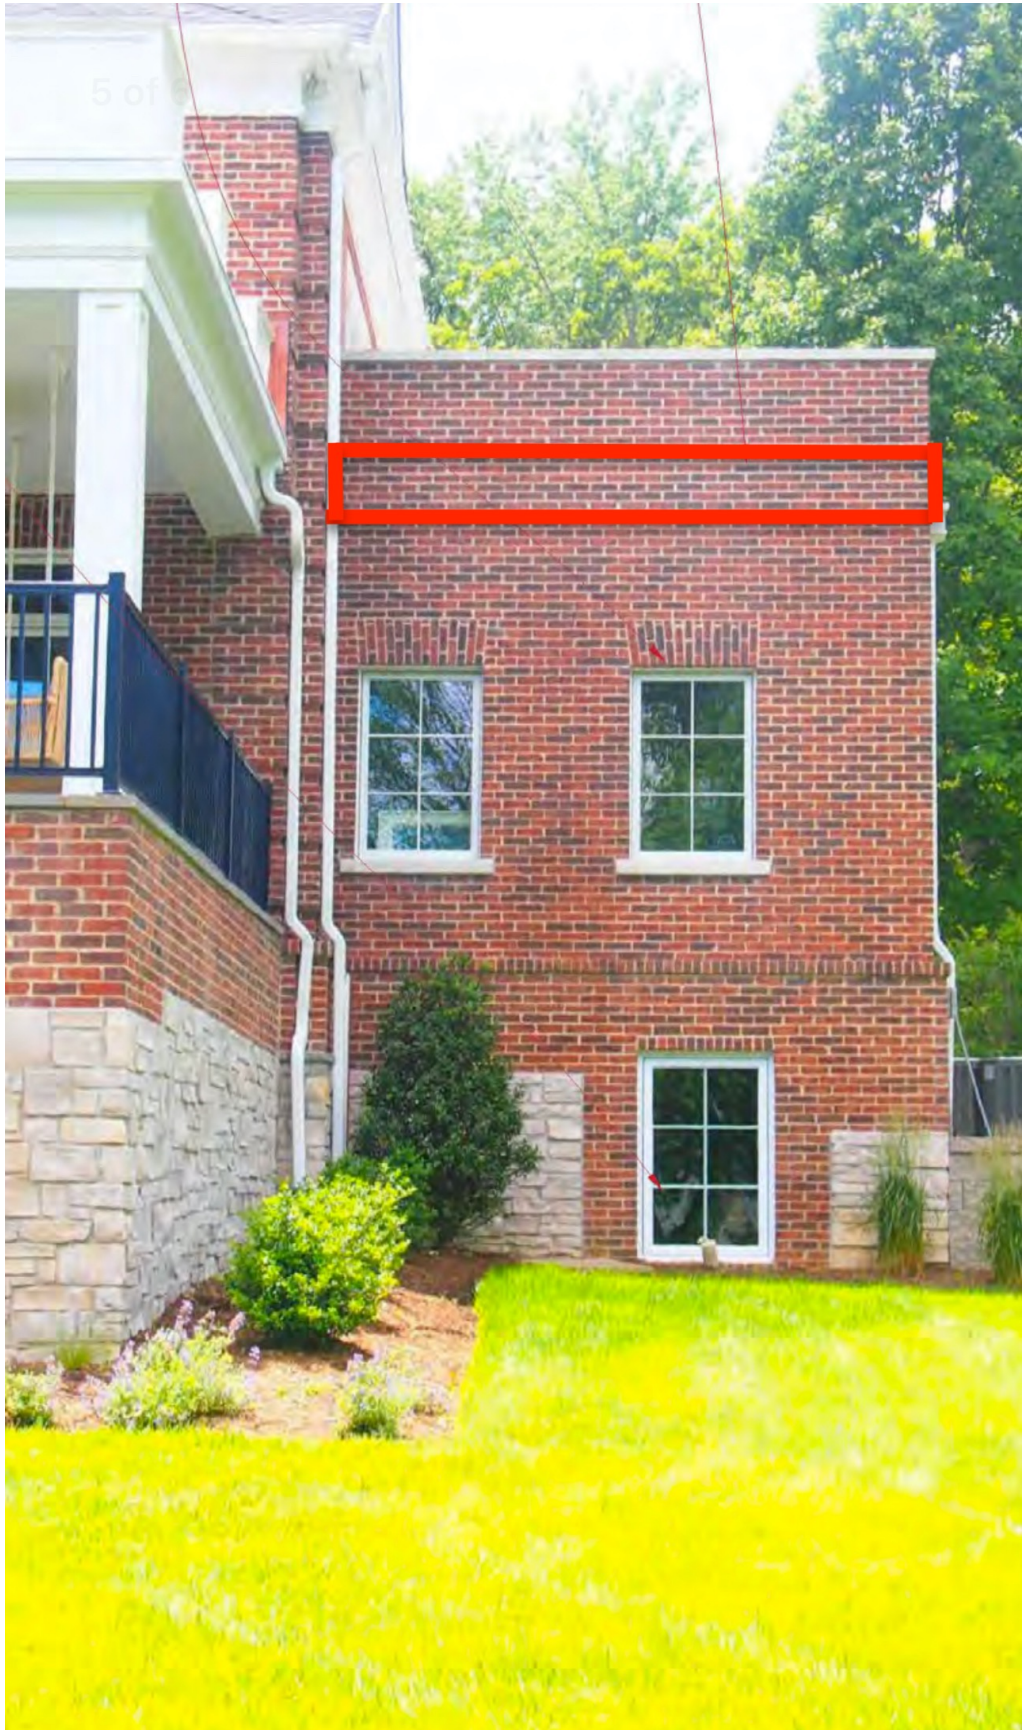

Thank you,

Feel free to call me or email.
